THERETE BEERY

OFFICE-NO. 14 WEST FOURTH STREET.

CINCINNATI:

AUGUST 29 MONDAY. The Canada-The America-The Africa.

These continents are reversing places. The steamer America shot in, "Young America" like, and took the place of the Canada. The Africa is now nine days out, having left Liverpool on the 20th inst. The Canada is assigned to the 24th of next month to leave for this country.

Resignation of Charles Moran. The distinguished Financier, CHAS. MORAN, who, for nearly two years has been President of the New York and Eric Railroad, at a salary of \$25,000 per annum, and within the last month at the reduced sum of \$8,000, reeigned his office on Saturday last. His resignation was accepted.

The Good Time Coming.

The season approaching is to be one of unusunt animation in business circles. Already our city is receiving the early tide of travel of buyers to this market. In New York City there is a flood of merchants. The crops are abundant, and money will be abundant.

The Great Eastern.

The steamship Great Eastern will not leave for this country until the 15th of September. It was originally designed that, on the trial trip, an extensive party should be passengers. The programme was to land at Portland, visit the principal places of distinction in the East, cross the Alleghany Mountains, examine the working of the "Caloric" in the office of the PENNY PRESS, Mammoth Cave, Minnehaha Falls, Niagara, and return. We have some idea of accepting the offer of two state-rooms on board, for the round trip, and if so, look out for the "items" in the PERSY PRESS.

Charles Mackay on Bostonians. CHARLES MACKAY gets off the following about the capital of New England: "Boston is the great metropolis of lecturers, Unitarian preachers and poets. Perhaps for poets it would be better to say rhymers or versifiers, and I make the correction accordingly. The finest churches tude, having neither papers nor colors. She in the city—with the tallest and handsomest was taken about the 13th of April. Out of the ticces, belong to the Unitarians. Lecturers have been so richly endowed by the Lowell bequest, that the Bostonians, over-be-lectured, often experience a feeling of nasues at the very suggestion of a lecture, or worse still, of a series of them. In walking along Washingtonstreet and meeting a gentlemanly-looking person, with a decent coat and a clean shirt, the traveler may safely put him down as either a lecturer, a Unitarian minister or a poet; possibly, the man may be, Cerberus-like, all three at once. In Boston the oness lies upon every respectable person to prove that he has not written a connet, preached a sermon, or delivered a lecture; and few there are above the station of the lowest kind of handieraftmen who could lay their hands upon their hearts and plead not guilty to one or the other of these charges."

The Magnetical Phemonenon Last--Night's Aurora Borealis.

The Indian's exclamation on observing the Aurora Borealis was, "The spirits of his fathers were roaming through the land of souls." The Sabbath eve of yesterday was gorgeous with the glow of electric fires. Heavy rains had fallen on Saturday, and the atmosphere was dense with moisture during yesterday. Soon after sunset, observation was made of a dense black cloud overspreading the heavens, which, giving way rapidly from the moon was visible.

Flickering and fantastic corruscations ensued; pencilings of rays shot up to the zenith with amazing velocity, changing from one quarter of the heavens to the other. Again the shower of fire would shoot out, thin as a gauze veil, its rose-colored hues tinging the sky with their magic splendor. The "merry dancers" caused an unwonted excitement among gazers, and all serts of speculation was made of what these celestian wenders mean. Some look for shooting stars to fall; the ignorant and supersticious regard the phenomenon as a harbinger of evil.

Scientific authority fails to fully account for the display. One of the first conjectures on record attributes it to inflammable vapors ascending from the earth into the polar atmosphere and there ignited by electricity. Dr. Hatley was of opinion that the poles of the earth were in some way connected with the Aurora; that the earth was hollow, having within it a magnetic sphere, and that the magnetic effluvia, in passing from the north to the south, might become visible in the northern hemisphere.

A steel-grey luster or phosphorescent light, about midnight radiating from the north, was the last appearance observed by us of this celestial wonder.

The wires, some eight years ago, were offeeted by a similar phenomena, and telegraph eperations had to be suspended, as in the case of lightning. All the Eastern lines, as those centering in this city, were thus effected last night, which accounts for the meagra telegraphic dispatches this morning.

Editorial and Selected Melange.

The foreign news by the America and City of Washington has been held back an unreasonable length of time by the Nova Scotia telegraph line.

"Flora Temple" has again carried off the purse in three straight heats over "Princess".—Time: 2:3014, 2:38 and 2:34; place-the race track, Saratoga, New York. An attempt will be made to have the victor at the Dayton horse

Experts say that the organ which accompanies church-singing should be even with the pews, and in front of the audience.

The America sailed in place of the Canada. The Paredi Opera Troupe appear to-night in Norma, at Pike's Opera-House.

The Cleveland Railroad Convention has terminated. They endeavored to so regulate freights that Western railroads should take proper pro rata of through prices, with eastern lines, making a proper allowance to the canal and lake companies, who can afford to carry cheaper than railroads. An attempt is being made to keep up prices, but the certainty and frequency of railroad conventions is proverbial, and the uncertainty of their plans is equally

well known. The Horse Fair at Dayton commences this day week.

Mrs. Varian James will give another conert in this city this week.

The American Ex-President Pierce and wife returned to America in the America.

The National Theate reopens this evening. with Miss E. Mitchell as "Julia," in Hunchback. General William Walker-once the fillibuster, now the filli-busted-passed through this city Saturday, going South.

This is il - last week of the fashionable season at the Ohio White Sulphur Springs, near Delaware, Ohio.

Q. Phelps, of Vernon, has succeeded U. D. Henkle, resigned, as editor of the Indiana Journal of Education. The latter comes to Lebanon, Ohio, to teach in Holbrook's Normal School.

Ratiroads in Iowa.

The railroads in Iows, with the distances completed, are thus given by the Dubuque Herald:

419 The Herald adds that the majority of these roads are graded much further than completed, and it is probable that a year from now the entire length of roads completed will be quite doubled.

Later from Africa.

Advices from Sierra Leone to the 21st of June, state that the yellow fever and small-pox have been raging there most fearfully, and have off nearly all the European population, besides hundreds of the blacks.

Mr. Oldfield, well-known in Liberia, senior partner of the house of Oldfield, Evans & Co., f Freetown, died on the 23d ultimo. William J. Smith, the supercarge of the

schooner Exchange, of Baltimore, had furnished the Liberia Herold with the following: Her Britannic Majesty's brig Heron was cap-sized in a tornado on the 13th of May, about

two hundred miles from Sierra Leone. The only survivors were the captain and twenty seaman, out of the whole ship's crew. A bark of about four hundred tuns was carried into Sierra Leone, May 4, having been captured by the Heron in about one degree north latitwenty souls saved from the Heron, it is sup-posed four were a part of the slaver's crew.

LATEST BY TELEGRAPH.

ESPORTED FOR THE PENNY PRESS.

Nora.—The America suited from Liverpool in

Five Days Later from Europe.

The City of Washington at Cape Race.

Naw York, August 27 .- The screw steamship City of Washington, from Liverpool on the 17th inst., and Cork on the 18th, was boarded by the news-boat of the Associated Press off Cape Race, at half-past two o'cleck, on Thursafternoon.

Her news had not reached Sackville at eight o'clock last evening, and the presumption is that the report is withheld, as usual, by the Nova Scotia Telegraph Company; but as the Newfoundland Company is about to disconnect their cable from the Nova Scotia shore and carry it over to Prince Edward's Island, as originally intended, thus passing around and avoiding Nova Scotta, the public may reasonably hope to be relieved at an early day from the outrageous conduct of the Nova Scotia telographors.

The America was boarded off Cape Race on Wednesday by the news-boat, and her news was immediately forwarded to Port Hood, and there handed over to the Nova Scotia line, and which would have been forwarded to New York in ample time for publication in Thursday morning's journals if the Nova Scotia Company had done its duty; but such a course would East, the stars appeared in a pure blue arch; have deprived the telegraph managers of the then the whole West was suffused with light, equal in brilliance to that of the moon, but no telligence was allowed to rest at Port Hood until after the America had arrived at Halifax, and her news had been dispatched to Sackville

The scree The screw steamship City of Manchester, which left New York for Liverpool on Seturday, was boarded by the agent of the Associated Press off Cape Race, at half-past four o'clock yesterday afternoon, and Captain Kennedy was bountifully supplied with the English papers received from Captain Petrie, of the City of Washington, which arrived the

day previous, as well as with the latest SACKVILLE, August 26, P. M .- The Nova Scotia line has closed beyond Sackville with-out delivering the five days later European

news dispatched for the Associated Press, which is known to be upon the line.

SACRVILLE, August 27, A. M.—The bluenoses of the Nova Scotia line still withhold our important news by the City of Washington, and as they may attempt some fraud on the public by using what does not belong to them, the commercial public should be en their guard. As soon as we receive authen-tic intelligence it will be made known.

The Ætna's Passage.

New York, August 27 .- The steamship Alma made an excellent run from Liverpool to Bos-ton, having beaten the America into the latter port about thirty hours, although she left Liverpool twelve hours later than the America. It was erroneously stated yesterday that the Æma brought no files of European papers from the Liverpool Agent of the Associated Press. Papers were received through the Postoflice, their delivery here having been delayed about fifteen hours, by the Purser of the Elma neglecting to deliver the bag to the Boston Agent, to whom it was addressed.

Arrival of Ex-President Pierce. Boston, August 27 .- Ex-President Pierce and wife are among the passengers of the

Sunday Evening Dispatches. ADDITIONAL NEWS BY THE CITY OF WASHINGTON.

New York, Aug. 28.—We have received the following additional news by the City of Washington, which was intercepted on Thursday last off Cape Race. The departure of the steamship Great East-

ers has been postponed till the 15th of Sep-

The Duke of Tuscany had arrived at Paris and received a friendly reception from the Emperor.
All the warnings to the French newspapers

A great fire had occurred at Liverpool, de

stroying a large quantity of cotton and grain.

The City of Washington brings four hundred passengers. She passed the steamer Certaestan n Wednesday.

LIVERPOOL, Aug. 18.—The sales of Cotton to-day are estimated at 6,000 bales. Bread-stuffs are dull and slow of sale, but prices are unchanged. Provisions dull; sales unim-

LONDON, Aug. 18.—Consols closed at 9514.

New York Financial Matters. New York, August 28.—The week closed on a much higher Stock market, with evidences of inreasing speculative spirit in the railroad shares, in which the transactions are on a large scale. It is worthy of special note that the busyancy shows itself quite as strongly in doubtful values as in those having intrinsic worth. The rise is greatest in Pacific Mail, Galena, Rock Island, Toledo and Michigan Central. The first is 3 per cent, above the quotations of Friday noon. The rest 1 per cent. Hudson, Harlem preferred, Recding, Michigan, Southern guaranteed, and Penama, are each 1/2 per cent. better. The bank shares were in rather better demand, and most descriptions are quoted higher. There was no particular change in the State stocks and railroad bonds. Of the former, Virginia Sixes fell 1/4.

The Money market, during the week, has ruled very uniform, and the supply of capital seeking temporary employment has been on the increase, and the call rate is 5½65 per cent., chiefly at the outside figure, but discounts have not undergone a similar change; the best 60 and 90 days paper, not being negotiable under 7 per cent. The assortment of long paper in the market has much improved during the week. Unmistakable evidence of increased activity in commercial circles appears on all sides, and the tone of the produce market has

improved during the week.
Exchange on London closed dull and easier, leading drawers accepting 100%. The princi-ple business for this mail has been in france at 5121/2 at sight for round sums. The export of bullion on Saturday includes nearly \$500,000 in silver, which is becoming every year a more general article of merchandise. The City of Baltimore took out upward of \$500,000 specie, Vanderbill nearly \$900,000. weekly bank statement is expected to show about the same as last week on the specie aver-The loans have been increased probably

Mr. Charles Moran has resigned the Presidency of the Eric Railroad. His resignation was accepted by the Board on Saturday.

Since the first board, stocks were excited with a large business at constantly improv ing prices. New York Central sold freely, closing at 74%(@74%; Rock Island at 65%@66; Galena 69, and Toledo 24. Sales of 1,000 shares Central; 300 Galena; 1,350 Toledo and Rock Island were made. The rapid rise has seen too much for the bears and more failures have occurred; nor do the bears appear to have much courage left. The city is crowded with strangers, and, since the Crystal Palace year, was never so full. The hotels are full to overflowing, and the most uncomfortable lodgings which landlords can offer are at a premium. Nine-tenths of all the strangers are from the North and South, showing that trade from those sections will be larger than has been expected.

River News.

PITTSBURG, August 27-M .- River two feet at Glass-house, and stationary.

LOUISVILLE, August 27-P. M .- River falling, with four feet scant in the Canal. Intermittent showers all day. Now raining, with prospects of a wet night. Pittsburg, August 28-P. M.-River 23

inches, and about stationary. Weather clear Louisville, August 28-P. M.-River falling, with 3 feet 10 inches in the canal.

Democratic Nominations.

DAYTON, August 27 .- The Democratic Convention of Montgomery County to-day nom-inated Adam Clay and Henderson Elliott for Representatives; Benjamin M. Ayres for Treasurer; Thomas F. Thresher for Prosecuting Attorney; Jacob Rigler for Coroner; Z. Catrow for Infirmary Director and R. Chambers for Commissioner.

Resolutions were passed indersing the Cin-cinnati Platform and the Columbus Platform of 1859, in favor of an usury law.

From Washington.

Washington, August 27.—The New Orleans capers of Sunday last have been received by

By a new regulation, to go into effect on the 1st of September, all free persons of color arriving there must immediately be ledged in jail, and remain until the departure of the boat or vessel on which they arrive.

The America at Boston.

Boston, August 27 .- The steamship America, from Liverpool, via Halifax, arrived here last night. Her mails were dispatched by the morning train, and will be due in Philadelphia to-night. Advices by the steamer Actna state that the

Africa arrived at Liverpool on Saturday evening, the 13th instant. Outward Bound.

New York, August 27.—The City of Balti-more sailed to-day with \$500,000 in specie, for

MONTERAL, August 27 .- The North America sailed for Liverpool this morning.

Arrival of the Moses Taylor.

New York, August 27.—The steamship Moses Taylor has arrived from Aspinwall, bringing \$2,126,600 in gold and the California mails of the 15th instant. Her advices from California have been anticipated via New

Personal.

SAVANNAH, GA., August 27 .-- Louis Barne, the French Consul at this port, died to-day of old age. He was an old resident of this city, and has occupied the post of Consul for the last twenty-two years.

Robbery.

ALEXANDRIA, VA., August 27 .- The store of Benjamin Parton, in this city, was robbed last night of watches, jewelry, &c., estimated at \$7,500. An entrance was effected from an adjoining unoccupied building.

Abandoned at Sea.

New York, August 27.—The schooner Beauty, of Philadelphia, from Alexandria, bound to Providence, was abandoned on the 25th instant, in a sinking condition. Her crew has Later from Venezuela. New York, August 27 .- An arrival at this port furnishes later advices from Venezuela.

The Liberals had taken Leguyra, without op-position, the morning of the 1st of August.

The Turf. ALBANY, August 27.—"Flora Temple" beat
